

Anti-COVID Air
Purification Systems
Reducing the risk
of infection in
restaurants

Keep your business running

Anti-viral filtration for your facility

Individually-tested H14 HEPA filters¹ capture more than **99.995%** of viruses, bacteria & other micro-organisms

High performance air flow rate for efficient air exchange

Low power consumption through optimized system and filter media design

Quiet operation, and discreet, neutral design for unobtrusive protection

Optional **UV-C stage** and **activated carbon prefilter** for odors, NO₂ and VOCs

The experts for your unique challenge

From HEPA upgrades to your HVAC system, air purification systems or real-time indoor air monitoring devices, MANN+HUMMEL is your development partner of choice for healthy air quality.

of restaurant customers are concerned about their health.²

of adults plan to eat at restaurants less often due to COVID-19 concerns.³

Customer fears over COVID-19 can be a genuine threat to your business. Or, they can be a **real opportunity**.

Provide healthy, virus-free air as part of your service.

While summer lasts and it's still warm outside, people will continue to enjoy your delicious food and drinks in your terraces and gardens. But what will happen when summer comes to an end?

Restaurant owners are already experiencing fewer guests as the evenings grow colder and customers decide to stay at home – reluctant to take the risk of eating inside in a crowded space. To avoid empty tables this winter, you will have to consider solutions

that reduce the spread of COVID-19 in your restaurant and set your customers' minds at ease.

Demonstrate that you care about customer health by reducing the risk of COVID-19 circulating within your indoor environment. An effective air cleaning system will not only show you care for your customers, but will protect your employees and ultimately reduce the risk to your business.

Learn more about our anti-COVID air purification systems

OurAir SQ 2500 & TK 850

Anti-viral purified air, anywhere

OurAir SQ 2500

For larger spaces up to 200 m² (per unit)

OurAir SQ 2500 is a **standalone air cleaning system** that can cope with the demands of a foodservice environment. With a maximum air flow rate of 2,500 m³/h, OurAir SQ 2500 is suitable for use in large spaces. **Multiple units can also be stacked or placed across a space for extra large areas.** OurAir SQ 2500 is so effective it can even be used outside and semi-closed spaces.

OurAir TK 850

For smaller spaces up to 70 m² (per unit)

OurAir TK 850 is a **portable air cleaner** with the flexibility that bars, restaurants and cafes need. Wheel it from room to room or store it away easily. OurAir TK 850 can clean a space quickly and efficiently with a maximum air flow rate of 850 m³/h. Best of all, it packs this high performance into a **space-saving design just 75 cm tall.**

OurAir SQ 2500	Technical Data	OurAir TK 850
1.004 x 0.523 x 1.051 m	Dimensions (L x W x H)	0.51 x 0.63 x 0.77 m
170 kg	Weight	60 kg

No retrofit, no fuss

Just a healthier, virus-free space

A long-term solution

Customers will still be concerned about their health long after COVID-19. **Both OurAir SQ 2500 and OurAir TK 850 provide effective defence against air pollution as well as viruses, bacteria and other micro-organisms.**

Most foodservice facilities are set-up to create a comfortable, pleasant environment for their customers. That means the air conditioning system (if one is present at all) is targeted at cooling or warming the space, not protecting occupants from viruses and other harmful contaminants.

OurAir SQ 2500 and TK 850 from MANN+HUMMEL are all-in-one units that enable building owners to turn any indoor space into a virus-free indoor environment.*

No retrofit or building works are required. **Simply plug 'n play and create a healthier space for your customers and team.**

*H14 HEPA filters reliably capture >99.995% of viruses and bacteria.

A NEW REALITY FOR YOUR BUSINESS

People were concerned about the air they were breathing even before a global pandemic hit. Now, it's at the forefront of their minds and will guide their actions for years to come – especially at winter time.

Customers will no longer just judge your restaurant, bar or café on things like food, prices and ambience.

They will factor in how seriously you take their health too.

You've carefully rearranged the furniture, installed hand sanitizing stations and posted updates to your social media accounts.

Make the difference and provide your employees and customers with peace of mind by installing OurAir SQ 2500 or OurAir TK 850 for cleaner, virus-free air.

A filtration leader For almost 80 years

For more than three-quarters of a century MANN+HUMMEL has been finding new ways to separate the useful from the harmful.

Today, our 22,000-strong team of filter experts – more than 1,000 of which make up our R&D department – work together to make our world a cleaner place.

26 filters roll off our production lines every second of every day.

So you can trust us to protect your customers, your team and your business.
